

September 2024

This month, we share our thoughts on the recent market volatility tied to changing forecasts about the labor market. While we can't stop market corrections, we can help make sure your investment strategy is built to handle them. On a related note, the workforce is evolving with employees shifting jobs more often than ever before. If you're considering a career change, we highlight some key financial items to keep in mind.

As always, know that as you continue on your financial path, we are here to help guide you. We encourage you to reach out with any questions.

Video Feature: What's Driving Recent Market Volatility

In this episode of Buckingham Perspectives, Chief Investment Officer Kevin Grogan explains why a recent jobs report has stirred markets. He also reminds us why it's important to maintain a long-term perspective in light of these developments.
